Subject: Machine Learning Study

Hello:

A few weeks ago, I informed you that I joined Cabot Partners as a Principal Analyst in May 2017.

Since joining Cabot, I've been actively working on Artificial Intelligence (AI) and Machine Learning (ML) and we continue to get significant interest from our clients.

Focusing on the technological and business aspects, we recently published an Enterprise Machine Learning (ML) Blueprint and a *Comprehensive and In-depth Business and Technology Analysis of Machine Learning*. I have attached an Executive Summary.

We would be happy to brief you and your teams on this study in greater detail. Let me know some convenient times my colleagues or I can connect with you this week or the next. Please feel free to send this to your other interested colleagues as well.

In addition, I am also attaching our Capabilities Deck showcasing the breadth and depth of our expertise, capabilities, and services with links to our work (slides 6 and 7).

Below is the contact information for my colleagues:

Srini Chari, Ph.D., MBA
Managing Partner
██████████████████████
██████████████████

Ajay Nair
Vice President, Operations
██████████████████████
██████████████████

Look forward to hearing/speaking with you soon.

Best Regards,

M. R. Pamidi, Ph. D.
Editor-in-Chief
